

## Ensemble and physical theater workshop with David Glass (UK) im Wallis

Join us for a week of intense physical theater and ensemble masterclass in the beautiful mountain setting of Saas Almagell. Places strictly limited so early booking is advised. Accommodation and food are included.

This masterclass will be rigorous, playful, and impactful. The workshop is rooted in the body of the performer and emotion, physical metaphor, and action form the key elements of the technique. You will learn how to have a greater presence on stage, how to balance simplicity and intensity, and progressively engage with new layers of response from restrictive to fully flexible. Participants will explore the vivid influence of ensemble work on the individual creative process and vice versa.

### Physical theatre workshop

The physical theatre workshop will give the participants a practical approach to physical theatre. Performers will learn how to have a greater presence on stage and will leave with a clear set of tools and techniques that can be adapted and used in a wide variety of theatre-making situations.

### Ensemble Theatre

The ensemble section of the workshop focuses on experiencing the gradual stages of collective awareness and the powerful creation that can emerge from group work. Throughout the workshop, there will be a focus on developing individual, partner, and collective awareness while building on the work of others in the group.

### David Glass (UK)

David Glass is a pioneer in the areas of Physical, Devised, Adapted, Ensemble, and Applied Theatre. Integrating learning from his teachers Lecoq, Grotowski, Gaulier, and Ailey, over 45 years David has bridged the innovative theatre of the 20th and helped to define the theatre and training of the 21st Century.
